

Table 3. Logistic Regression Models with Risk Factors for IPVAW

Independent Variables	Psychol
	OR
Individual Variables	
Edad de la encuestada	1.013***
Education Level (reference: none/literacy center)	
Primary/Basic	0.881
Secondary	0.718
Higher Education	0.653*
Employment Status (reference: no)	1,098
History of childhood violence experienced by respondent	1.148***
History of childhood violence experienced by partner	1.223***
Variables in the couple relationship	
Children (reference: no)	2.442***
Marital Status (reference: married/cohabiting)	
Divorced/Separated	1.413***
Single	0.669
Widowed	0.826
Attitudes and behaviors in the couple relationship	
Gender roles	0.997
Acceptance of violence	0.990
Partner control behaviors	1.362***
Respondent's control behaviors	1.345***
Contextual variables	
Urban area (reference: rural)	0.806*
Ethnicity (reference: indigenous)	
Afro-Ecuadorian	0.452*
White	0.602
Mestizo	1,027
Montubian	0.602
Others	0.739
N	4.032
X2	1,739.7(21)**
AIC	3,893.8
Pseudo R2 of Nagelkerke	0.46
Pseudo R2 of Cox and Snell	0.35

OR = Odds Ratio; CI = Confidence Interval; AIC = Akaike Information Criterion; reference
